Section 3  Hazard Identification

Product Overview: This material is a stable, non-flammable, viscous liquid with a flashpoint above 212° Fahrenheit.

Primary Routes of Exposure:

Eye Contact
Skin Contact

Potential Acute Health Effects:

Eye: May cause eye irritation.

Skin: Prolonged contact may cause skin irritation.

Ingestion: May cause gastrointestinal irritation and nausea may occur if swallowed.

Inhalation: Although inhalation is not considered a significant route of exposure, high vapor concentrations may cause respiratory irritation.
**Potential Chronic Health Effects:** None known.

(See also Sections 4, 8, and 11 for related information)

---

**Section 4  First Aid Measures**

**Eye contact:** Flush eye with water for 15 minutes. Get medical attention.

**Skin contact:** Wash with soap and water. Get medical attention if symptoms occur.

**Ingestion:** If swallowed, call a physician or poison control center.

**Inhalation:** If exposed to excessive levels of vapor, remove victim to fresh air. Seek medical attention if cough or other symptoms persist.

---

**Section 5  Fire Fighting Measures**

**Flash Point (method):** Not Determined (estimated to be above 212° F).

**Extinguishing Media:** Use water spray, foam, or carbon dioxide when fighting fires involving this material.

**Protection of Firefighters:** As in any fire, wear self-contained breathing apparatus in pressure demand mode and full protective gear.

---

**Section 6  Accidental Release Measures**

**Clean Up Methods:** Keep unnecessary people away. Dike and contain spill with inert material (sand, earth, etc.). Transfer liquid to containers for recovery or disposal, or absorb with absorbent materials and place into containers for disposal. Keep spill out of sewer and open bodies of water. Floors may be slippery; care should be exercised to avoid falls during clean up operations.

(See also Section 8 for information on Exposure Controls and Personal Protective Equipment)

---

**Section 7  Handling and Storage**

**Handling:** Avoid contact with eyes, skin, and clothing.

**Storage:** Keep from freezing. Keep container closed when not in use.
Section 8  Exposure Controls / Personal Protection

Engineering Controls:  If exposure conditions warrant, use mechanical local exhaust ventilation or general dilution ventilation to reduce vapor concentrations.

Personal Protective Equipment (PPE):

Eye Protection:  Wear safety glasses or face shield to prevent eye and face contact.

Skin Protection:  Wear gloves to prevent prolonged skin contact.

Respiratory Protection:  None required under normal, intended use conditions. If vapor exposure causes discomfort and in areas of poor ventilation wear NIOSH approved respirator.

Protective Clothing: For brief contact, no special precautions other than clean body-covering clothing should be needed. When prolonged or frequent repeated contact with the material could occur, use protective clothing that is impervious to this material (such as tyvek).

General Hygiene Practices: Wash thoroughly after handling. Prevent Eye contact. Avoid prolonged skin or inhalation contact.
